1. The Artillerie Kaserne in Bischofswerda was occupied by a transport unit and drivers' school, consisting of about 550 men with black/red shoulder-boards. Only light infantry weapons were observed in the installation.
2. The drivers' school was not very active. On the average, two days a week were spent in conducting firing exercises at the range just east of the installation itself. About 60 men constructed motor vehicle sheds on 8 December.
